MEMORANDUM FOR: OFFICE OF LOGISTICS

SUBJECT: Request for Approval of a Deep Freeze Unit

25X1A6c REFERENCE: [Redacted] 4 April 1955

1. It is requested that the deep freeze unit listed on the attached NEA Requisition, No. 337-H-631-56, be approved. This unit has been requested by the Chief of Station, [Redacted] for use by station 25X1A6a members.

2. This unit will aid greatly in alleviating dietary monotony during the prolonged hot season, as well as provide a storage facility for persons of operational interest to the station.

25X1A 3. The [Redacted] station has been plagued with illness over the last 12-18 months, to the extent of functioning with an average of 40-50% personnel at most times. To what extent this situation is due to overwork, unsanitary conditions, poor diet or some other related cause is not determinable. However, the morale factor resultant from this situation is determinable, and is of great importance.

25X1A6a 4. Open market meats [Redacted] are of questionable cleanliness and unquestionable poor quality. Game is plentiful, excellent quality, and can be handled very sanitarily if the proper refrigeration facilities are available. The relationship between good food and health, and between good health and high morale are well known. It is felt that we must take every available opportunity to promote the health and morale of field personnel. The price of purchasing and shipping this unit is small in comparison with its value to the [Redacted] station, its morale and efficiency, and the better health of its personnel.

25X1A6a 5. Your expeditious handling of this request will be greatly appreciated.

25X1A9a RECOMMEND APPROVAL [Redacted]
Acting Dir. of Logistics

[Redacted] 25X1A9a
Chief
Division of Near East
and Africa

Recommendation in paragraph 1 is Approved
